

Systematics Gathering XVII – A DuVersity Event

OUR ABODE IN REALITY

The Present Moment – its genesis, structure and meaning

Systematics Gathering XVII – Nashville Tennessee, June 23-5, 2016

Led by Anthony Blake with music provided by Darlene Franz

John Bennett's Present Moment is not the specious present of fleeting experience – an 'instant' - but the "field of operation of a will". It is the location of our understanding, the basis of communication and communion, and all that we can be. It is past, present and future, what has been, what ought to be and what can be, our heaven and our earth.

Bennett's three kinds of time and his hyparchic understanding

The time-span discretion idea of Elliot Jacques in organizations

Ted Matchett's 'time delta-t'

Time-travel in our experience

The music of time
